

# SAFETY DATA SHEET

## 1. Product and Company Information

**Product name** Analytical standard [D-Asp<sup>3</sup>,(E)-Dhb<sup>7</sup>]Microcystin RR (from *Planktothrix* sp.)

MCYST-AspDhbRR **Synonym** 

**Chemical formula**  $C_{48}H_{73}N_{13}O_{12}$  ([D-Asp<sup>3</sup>,(E)-Dhb<sup>7</sup>]Microcystin RR)

Supplier Cyano Biotech GmbH, Magnusstrasse 11, D-12489 Berlin, Germany

Phone: +49 30 6392 4481 +49 30 6392 4488 Fax: E-mail: info@cyano-biotech.com

#### 2. Hazards Identification

Special indications of hazards Risk advice to man and the environment

> Highly flammable. Toxic by inhalation, in contact with skin and if swallowed. Toxic: danger of very serious irreversible effects through inhalation, in contact

with skin and if swallowed.

### 3. Composition / Information on Ingredients

Solution of 10 μg/ml [D-Asp³,(E)-Dhb<sup>7</sup>]Microcystin RR in MeOH, approx. 0.001 % **Product** 

**CAS Number** None **EC Number** None

**Ingredient name** Methanol, > 99,9 %

**CAS Number** 67-56-1 **EC Number** 200-659-6 **Symbols** F, T

**R-Phrases** 11-23/24/25-39/23/24/25

## 4. First Aid Measures

General advice Consult a physician. Show this safety data sheet to the doctor in attendance.

**Inhalation** If inhaled, move person into fresh air. If not breathing give artificial respiration. If

breathing is difficult, give oxygen. Get medical attention immediately.

**Ingestion** If swallowed, do not induce vomiting unless directed to do so by medical personnel.

Never give anything by mouth to an unconscious person. Loosen tight clothing such as

a collar, tie, belt or waistband. Get medical attention immediately.

**Skin Contact** In case of skin contact, immediately flush skin with plenty of water for at least 15

minutes while removing contaminated clothing and shoes. Cover the irritated skin with an emollient. Wash clothing before reuse. Thoroughly clean shoes before reuse. Get

medical attention.

**Eye Contact** In case of contact, immediately flush eyes with plenty of water for at least 15 minutes.

Check for and remove any contact lenses. Assure adequate flushing by separating the

eyelids with fingers. Get medical attention.

## 5. Fire-Fighting Measures

Extinguishing media Suitable: Water spray, carbon dioxide, dry chemical powder, or appropriate foam. Special risks

Specific Hazard(s): Flammable liquid. Emits toxic fumes under fire conditions.

Explosion Hazards: Vapor may travel considerable distance to source of ignition and

flash back. Container explosion may occur under fire conditions.

**Special protective equipment** 

for fire fighters

Wear self-contained breathing apparatus and protective clothing if necessary to prevent

contact with skin and eyes.

#### 6. Accidental Release Measures

Personal precautions Wear respiratory protection. Avoid breathing vapors, mist or gas. Ensure adequate

ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low

areas.

**Environmental precautions** Prevent further leakage or spillage if safe to do so. Do not let product enter drains.

Methods for cleaning up Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand,

earth, diatomaceous earth, vermiculite). Place in covered containers using non-sparking tools and transport outdoors. Ventilate area and wash spill site after material pickup is

complete.

## 7. Handling and Storage

**Handling** Do not breathe vapor or mist. Avoid contact with eyes, skin, and clothing. Avoid

prolonged or repeated exposure. Do not use if skin is cut or scratched. Wash thoroughly after handling. Keep away from sources of ignition - No smoking. Take measures to

prevent the build up of electrostatic charge.

**Storage** Store in cool place not above -20°C (-4°F). Keep container tightly closed in a dry and

well-ventilated place. Keep away from heat, sparks, and open flame.

### 8. Exposure Controls/Personal Protection

**Respiratory protection** Where risk assessment shows air-purifying respirators are appropriate use a full-face

respirator with multipurpose combination (US) or type AXBEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH(US) or

CEN (EU).

**Skin and body protection** Choose body protection according to the amount and concentration of the dangerous

substance at the work place.

Hand protection The selected protective gloves have to satisfy the specifications of EU Directive

89/686/EEC and the standard EN 374 derived from it. Handle with gloves.

**Eye protection** Chemical safety goggles

Avoid contact with skin, eyes and clothing. Wash hands before breaks and immediately

after handling the product.

### 9. Physical and Chemical Properties

Physical state liquid Color colorless

pH no data available Melting point -98,0 °C

Boiling point 64,0 - 65,0 °C Flash point 11,0 °C - closed cup

 $\begin{array}{lll} \textbf{Ignition temperature} & 455 \, ^{\circ}\text{C} \\ \textbf{Lower explosion limit} & 6 \, \%(\text{V}) \\ \textbf{Upper explosion limit} & 36 \, \%(\text{V}) \\ \end{array}$ 

**Vapour pressure** 546,6 hPa at 50,0 °C 130,3 hPa at 20,0 °C

**Density** 0,79 g/cm<sup>3</sup>

Water solubility completely miscible

**Partition coefficient:** log Pow: -0,77 (n-octanol/water)

## 10. Stability and Reactivity

**Stability** Stable under recommended storage conditions.

**Conditions to avoid** Heat, flames and sparks.

Materials to avoid Acids, acid chlorides, acid anhydrides, oxidizing agents, alkali metals, reducing agents.

**Hazardous Decomposition** 

Products

Hazardous decomposition products formed under fire conditions. - Carbon oxides

Hazardous Polymerization Will not occur.

## 11. Toxicological Information

Acute toxicity LD50 Oral - rat - 5.628 mg/kg

LC50 Inhalation - rat - 4 h - 64000 ppm LD50 Dermal - rabbit - 15.800 mg/kg

Irritation and corrosion Skin - rabbit - Skin irritation - 24 h

Eyes - rabbit - Eye irritation - 24 h

**Sensitisation** no data available

**Chronic exposure**No component of this product present at levels greater than or equal to 0,1% is

identified as probable, possible or confirmed human carcinogen by IARC.

Signs and symptoms of

exposure

Nausea, headache, and vomiting. Gastrointestinal disturbances. Dizziness. Weakness. Confusion. Drowsiness. Unconsciousness. To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated. Ingestion can cause: Methyl alcohol may be fatal or cause blindness if swallowed. Cannot be

made non-poisonous.

**Route of exposure** Skin Contact: May cause skin irritation. Skin Absorption: Toxic if absorbed through skin.

Eye Contact: May cause eye irritation. Inhalation: Material may be irritating to mucous membranes and upper respiratory tract. Toxic if inhaled. Ingestion: Toxic if swallowed.

**Target organ information** Eyes. Kidney. Liver. Heart. Central nervous system.

#### 12. Ecological Information

### **Ecotoxicological effects**

**Toxicity to fish** LC50 - Oncorhynchus mykiss (rainbow trout) - 19.000,00 mg/l - 96 h

LC50 - Cyprinus carpio (Carp) - 36.000,00 mg/l - 48 h

Toxicity to daphnia and other aquatic invertebrates.

EC50 - Daphnia magna (Water flea) - 24.500,00 mg/l - 48 h EC100 - Daphnia magna (Water flea) - 10.000,00 mg/l - 24 h

## 13. Disposal Considerations

**Substance disposal** Contact a licensed professional waste disposal service to dispose of this material. Burn

in a chemical incinerator equipped with an afterburner and scrubber but exert extra care in igniting as this material is highly flammable. Observe all federal, state, and local

environmental regulations.

**Contaminated packaging** Dispose of as unused product.

## 14. Transport Information

RID/ADR

UN# 1992
Class 3
PG II
Subrisk 6.1

Proper Shipping Name Methanol solution

**IMDG**

## 15. Regulatory Information

Classification and labeling according to EU directives.

### **Labeling according to EC Directives**

**EC Label** 

**Hazard symbols** 

F Highly flammable

Toxic

R-phrase(s)

R11 Highly flammable.

R23/24/25 Toxic by inhalation, in contact with skin and if swallowed.

R39/23/24/25 Toxic: danger of very serious irreversible effects through inhalation, in contact with

skin and if swallowed.

S-phrase(s)

S 7 Keep container tightly closed.

S16 Keep away from sources of ignition - No smoking. S36/37 Wear suitable protective clothing and gloves.

S45 In case of accident or if you feel unwell, seek medical advice immediately (show the

label where possible).

#### 16. Other Information

Warranty The above information is believed to be correct but does not purport to be all inclusive

and shall be used only as a guide. The information in this document is based on the present state of our knowledge and is applicable to the product with regard to appropriate safety precautions. It does not represent any guarantee of the properties of the product. Cyano Biotech GmbH shall not be held liable for any damage resulting from

handling or from contact with the above product.

**Disclaimer** For R&D use only. Not for drug, household or other uses.

**Date updated** 15<sup>th</sup> of July 2009
